59	Java	BJP4 Chapter 8	BJP4 Self-Check 8.04: ReferenceMystery3	2019-0

(Click a column header to sort by that column.)

Make sure that you have your **School field** set properly, or else your instructor might not be able to see you in their results page. Be careful because some schools are in the list multiple times with similar names, such as "U of Washington" and "University of Washington". Make sure to choose exactly the school name that your instructor tells you to choose, or they will not be able to see your progress.
